Editorial...

With arrival of showers of monsoon, the mother earth and all its elements chant a songs of bliss and jubilation because dryness of scorching summer is replaced with green cover which reminds of regeneration. Regeneration and revival is always appreciating because it gives birth to new incarnation. It boots new thought process. Similarly, eager to explore & create has given rise to new articles in the present issue of Contemporary Research in India.

We welcome the scholarly articles & endeavour of all contributor, & wish them all the best for quest of exploration in future.

Dr. Deepak Nanaware
Editor-in-chief

Contemporary Research in India (CRI) is an open access, peer-reviewed & referred Multi disciplinary International Journal with quarterly periodicity aims at providing academic and intellectual platform to the scholars worldwide. It publishes research articles from Agriculture, Arts, Humanities, Social Sciences, Science, Engineering and Technology, Law, Education, Medicine and so on. The Journal promotes interdisciplinary studies with pursuit of excellence in the methodic & scientific research adopting standard research norms of the streams.

The journal is published quarterly in print form; however, online open access is provided to the research community worldwide. The Journal will also help to explore creative and research talents published in the form of research articles, reviews, poetry, short story, etc. with a view to establish, understand and maintain harmony among different disciplines and spheres. Above all, emphasis and priority will be given to pure research as it will mould the world in future. The purpose is to disseminate an authentic body of research which further promotes knowledge, understanding and an intellectual exercise the research fraternity.

Although, multi disciplinary in nature, the journal follows internal compartmentalization of experts from the areas concerned with meticulous review & evaluation of the manuscript from the experienced peer-reviewers from different parts of the world.
